## Configurator - Step 04

The image shows a web-based configuration tool for SALICE storage compartments. The interface is divided into several sections:

- Header:** The top left features the SALICE logo. The top right has a language selector set to "ENG".
- Navigation:** On the left, a vertical menu lists the configuration steps: Information, Selection of drawer type, Internal dimensions of drawer, Selection of bridging unit, Insertion and handling of storage compartments (which is the active step, highlighted with a red circle), and Download configuration.
- Main Content Area:**
  - Top:** A "SELECT ALL" button is on the left, and a "TUTORIAL PDF" button is on the right.
  - Center:** Two large panels show the selected configuration. The left panel is a top-down view of a wooden cabinet with two dark drawers. The right panel is a 3D perspective view of the same cabinet.
  - Bottom:** A section titled "Finishes of drawer" and "Finishes of storage compartments" displays a grid of 24 color and wood-grain swatches. A large "1" with a hand cursor points to the "Frontale" (front) panel of the cabinet, and a large "2" with a hand cursor points to the "Retro" (back) panel. The swatches include various wood grains (e.g., Abete, Noce nazionale, Rovere medio) and solid colors (e.g., Bianco, Blu, Rosso).
- Footer:** At the bottom, there are three buttons: "GALLERY", "BACK", and "FORWARD".
